Dispense Medical Supplies With Ease

Our automated medication dispensing system helps emergency medical service providers save costs and maintain compliance with DEA and FDA regulations. Using our VN Cloud software along with our smart vending machines, lockers, and other hardware offerings, businesses gain complete accountability for medical supplies and narcotics while reducing wasted goods and streamlining operations.

Savings Can Exceed
40%

Staff Efficiency
Position medical supplies where they are needed for easy access

Accountability
Cloud-managed access control rules and real-time activity tracking

Cost Reduction
Minimize overstocking, waste, and administrative overhead with sophisticated inventory control

Security
Secure medical supplies in locked, tamper-resistant vending machines or smart lockers

Admin Time Savings
Eliminate manual inventories and streamline reordering with automatic replenishment

Features

- ☑ Meets DEA narcotic storage control standards
- ☑ Two-factor authentication
- ☑ Dual validation to provide transaction witnesses
- ☑ Lot number and expiration date management
- ☑ Electronic checklists for managing vehicle inventory

- ☑ Purchase order generation
- ☑ Low inventory alerts
- ☑ Integration with select ERP platforms
- ☑ Track both supply rooms and machines for complete inventory lifecycle accountability
