

Simplify Employee Supply Management

VendNovation offers secure tech and IT dispensing solutions for quick access to necessary workplace supplies. Employees simply swipe their badge and retrieve an item with 24/7 access, eliminating labor costs in IT helpdesks and supply rooms. Vending machines and lockers can be configured to contain only items nearby workers use, including bulky items like laptops or new employee starter kits. Detailed reports and unparalleled access control make it possible to get a handle on your workplace supply costs and inventory management.

Reduce Help Desk Tickets
20%

Frictionless IT Cost Savings
25%

Time Savings

IT staff can stock dispensing systems at fixed intervals, eliminating daily interruptions

Lower Costs

Employees swipe a badge to access supplies, so consumption is tracked to minimize shrinkage

Usage Limits

Set usage limits to meet budget goals or offer purchase options through payroll deduction

Cost Accounting

Access detailed transaction reporting and track consumption to cost centers or projects

→ IT, Tech, and Office Dispensing Solutions
