

→ Customizable Industrial Supply Dispensing Systems

Vending Solutions for Industrial Supplies

Take MRO and PPE delivery efficiency to the next level. Save on supply costs by creating employee accountability with consumption limits and better inventory tracking.

Plus, advanced features such as check-in and check-out enable tracking of individual assets such as tools. Advanced reports show per-employee spending, overall job costs, or even usage trends over time.

Typical Consumption Reduced
20-30%

Cost Savings

ID-based access to items and consumption tracking lead to reduced shrinkage

Cost Accounting

Detailed transaction reporting allows end users to assign usage to cost centers or projects

Employee Accountability

Identification is required for access to supplies

Asset Tracking

Check-in and check-out features enable usage tracking of individual assets

→ Customizable Industrial Supply Dispensing Systems

Features

- ✓ Report automation emails on a predetermined frequency
- ✓ Real-time reporting
- ✓ Daily, weekly, monthly, or annual consumption limits
- ✓ Third-party integration with robust APIs
- ✓ Limit dispensing to specific employees, products, or product groups
- ✓ Storeroom management tracking for complete inventory accountability
