

# All-in-One Vending Machine and Locker System

Take full control of your most essential assets with the Optima Colo, which stacks a half-size Optima Helix on top of a Versa SmartLocker. This all-in-one combined vending machine and locker creates a system that is half coil vending machine and half smart locker, all in the form factor of a vending machine. This innovative unit offers a small footprint solution for operations with product assortment options for both bulky and small items. This all-in-one system is perfect for industrial supplies, medical supplies, and more.

## Features

### Easy Manual Override

Easily allows for manual access to all lockers and vending units through a single master key.

### Secure Electronic Vending

Store and dispense items using employee ID badges, biometrics, or a cashless payment method.

### Seamless Connectivity

Maintain continuous connectivity with Ethernet, WiFi, or cellular access for remote monitoring and reporting.

### VN Cloud Software Ready

Visibility and remote management of inventory, performance and usage data collection, machine health, and accounting.

### Automatic Alerts

Route customizable automated alerts to multiple individuals and set escalation alerts.

### LED Vending and Bay Lights

Enjoy energy-efficient LED lighting for clearer visibility and hassle-free dispensing and restocking.
