→ Optima Helix Touch

Smarter Vending With the Optima Helix Touch

The Optima Helix Touch is an innovative, modern vending machine that features a 48" touchscreen. Designed with the ultimate WOW factor, this machine is perfect for environments and installations where rich product information needs to be displayed. An online graphic management tool allows administrators to update graphics and on-screen messaging to create a branded experience. The Optima Helix Touch is also equipped with VN Cloud connectivity, offering automated reporting and real-time inventory tracking. Users can access items securely using an ID card, biometrics, or a PIN.

Features

Compact Design
A compact vending machine providing controlled access to essential supplies in space-constrained environments.

Secure Electronic Vending
Vend items using employee ID badges, bio identification methods, or a cashless payment system.

Seamless Connectivity
Maintain continuous connectivity with Ethernet, WiFi, or cellular access, for remote monitoring and real-time reporting.

VN Cloud Software Ready
Visibility and management of remote inventory, performance, data collection, machine health, and accounting.

Automatic Alerts
Route customizable automatic alerts to multiple individuals and set escalation alerts.

Optional Wall Mounting
A floor stand that can be easily mounted on a wall, providing versatility.
